INJURED BOYS IMPROVED.

Hedin and Murteau at Hospital—Authorities Investigating Auto Accident—Chauffeur Road Arrested, Nearly Prostrated.

The condition of Alfred Hedin and Armand Murteau, the two boys injured by an automobile driven by Clinton C. Road Monday afternoon, remained the same, although it was reported that a slight improvement was noticeable Tuesday afternoon. The Hedin boy is now reported as injured worse than the other, although it was said Monday evening that the Murteau lad was the more seriously injured. He is now considered to have a better chance for complete recovery than the Hedin boy.

The father of the Hedin boy, Albert Hedin, conferred with Chief E. H. Richmond Tuesday morning and asked to have the accident carefully investigated. The authorities have made such an investigation and arrested Road last night.

Prosecuting Attorney E. Frank Bugee states that no two stories that he agreed were told to him in the matter of the Murteau boy's accident. He said that the Murteau boy at the hospital Tuesday morning told him that he did not hear anyone call to him and did not see the automobile and could not tell whether the automobile was riding his bicycle from Center street into Valley street. Prosecuting Attorney Bugee and Chief Richmond spent a number of hours working on the case Tuesday and have decided to do one thing relative to automobiles in this city and that is to take every possible measure to make automobile drivers foot their horses when passing a street corner of an intersecting street. They say that there are many automobile drivers who do not do that and the officers of the police department will be told to keep sharp lookout for drivers who fail to comply with that provision of the state motor law. The accidents Monday have been the excuse for many people in the community to suggest that stringent measures be adopted for a more strict enforcement of the automobile law. There are many young men as well as older ones driving cars in the city who are prone to spread their cars in the congested streets.

Clinton C. Road, the driver of the automobile which struck the boys talked freely with the authorities relative to the same. He has always been considered a careful driver, in fact it is said by many who have had occasion to ride with him that he was exceptionally careful and at all times kept his machine under control. He was nearly prostrated Tuesday and feels the accidents very keenly.

FIVE SCARLET FEVER CASES.

Schools at Storrs and Eagleville Closed—College Closes as Matter of Precaution.

Scarlet fever has broken out in the town of Storrs and all possible precautions have been taken the past few days by Health Officer Dr. William E. Cramm to stay the spread of the disease. The district school at Storrs was closed Friday and Tuesday the school at Eagleville was ordered closed. The schools will remain closed until the first week in January, by order of Health Officer Cramm.

As a matter of precaution the officers of the Connecticut Agricultural college at Storrs have closed the college until after the Christmas recess, although the recess ordinarily would not commence until Friday, Dec. 20. The first case of scarlet fever made its appearance about Thanksgiving and it is thought that Mrs. Lella D. Warren, who was stricken with the disease about ten days ago and died early Monday morning at her home at Spring Hill, came in contact with one of the first cases. At present there are five cases under quarantine, the young sons of Professors H. L. Garigue and J. M. Trueman of the college and the sons of John Costello and Joseph King, all of Storrs, and pupils of the Storrs district school and the fifth case is that of a young son of John Faircloth of Eagleville. The last named family, up to a short time since, resided in this city.

St. Mark's Boys on Special Train.
A special train en route from Boston to New York passed through this city at 3:40 o'clock Tuesday afternoon with a crowd of St. Mark's school boys aboard, homeward bound for the Christmas recess.

\$17.50 FOR CALLING NAMES.

Discharged Tailor Paid for Reviling Ex-Employer.

Tuesday morning Mike Michowski, a tailor, was arraigned in police court on the charge of breach of the peace. A Butleman, proprietor of a tailoring establishment on Jackson street, was the complainant. Butleman testified that the accused had been employed by him for a time, but had been discharged on July 2. Michowski was in a saloon next door to his tailor shop and shouted vile epithets at him through the open window. At first he did nothing but the second time he heard the remarks he had the fellow arrested. Judge William A. Arnold found Michowski guilty and imposed a fine of 10 and costs, amounting to \$17.50, which was paid. The court warned Michowski to be careful.

LECLAIR WILL PROBATED.

Money to Widow—Real Estate to Sons, Under Certain Provisions.

The last will and testament of Joseph LeClair was admitted to probate Tuesday morning by Judge James A. Shea. The testator leaves all money to his widow absolutely. His real estate is left to his sons, but his widow has a life use of the property, but in the event of her marrying again she will lose this life use. Then it is to be divided between his sons, Joseph, Charles, Paul, William, Ferdinand and Arthur, share and share alike. The will was executed September 30, 1907, and signed in the presence of Katharine McCran, Christianne Pageau and P. J. Danahy. Mrs. LeClair is named as executor. Judge Shea appointed Dr. C. H. Gizard and Ernestine Dion appraisers on the estate.

ine in Danielson, at least sufficient coal is being received to insure every one keeping comfortable with what is being delivered.

Lower Rates in February or March.

It was stated here Tuesday that the rates for electricity will not be adjusted so as to put the reduced schedule of charges into effect on January 1, as had been hoped for, but the reduction may be looked for either on February 1 or March 1.

Sheriff Sibley Injured.

Sheriff Preston B. Sibley has an injured arm, which is quite badly swollen, as the result of a fall he received while passing from one room to another in his home in the dark.

Possible New Industry.

There were rumors here Tuesday of a transaction said to involve the sale of certain water power rights at East Killbuck and the story is that the deal means another new industry for this town.

To Safeguard Packages.

Postmaster C. A. Potter calls attention to the advisability of properly wrapping and marking Christmas packages. A return address on each package is a desirable precaution for senders to take. There is a return of the property if it falls of proper delivery.

The singing of Christmas carols last year on the eve of the great holiday was a pretty feature of the observance of the feast and it is understood that the young people who gave the tuneful serenades last year are contemplating doing likewise this season.

At St. James' church on Christmas morning there is to be the usual holiday observance, with extra masses, the first at five o'clock.

There has been some talk during the last few days of calling together the Danielson board of trade that it might be reorganized. There is a feeling that the board might do a number of things for the general good of the community.

Stores Open Evenings.

From tonight until after Christmas the stores in Danielson are to be kept open every night that the holiday shoppers may have an opportunity to do their buying.

Dayville Candidates for Postmaster-ship.

Among the names mentioned for appointment as postmaster at Dayville to succeed Postmaster W. F. Kilwell are those of Patrick Hiley, member of the democratic town committee and former selectman, and Edward Brennan.

Attorney Sabin S. Russell of this town will have the solid support of the republicans of the next Connecticut house of representatives from Windham county for reappointment as clerk of the house.

Think Vendors Should Be Licensed.

Some Danielson business men would like to see in force in this town a regulation whereby transient vendors would be required to license to do business here, as is done in other nearby towns. Putnam, for example, where the revenue from such license will be close to \$1,000 this year. These vendors get a lot of business out of this town, but pay back nothing in the way of taxes or other revenue for the public good.
